

Bringing your
home to life

SafeGuard
COMPOSITE DOORS

Your door journey starts here

With a huge range of door styles, a bespoke colour palette, and glass range to choose from, you can create a personalised Safeguard door that is truly unique to your home.

Choose your door style

Your front door is the first thing visitors will see. Cherry-pick your perfect design from a wide variety of traditional and contemporary styles. Use our online door-designer to create your new front door today at safeguardproducts.co.uk.

Choose your door colour

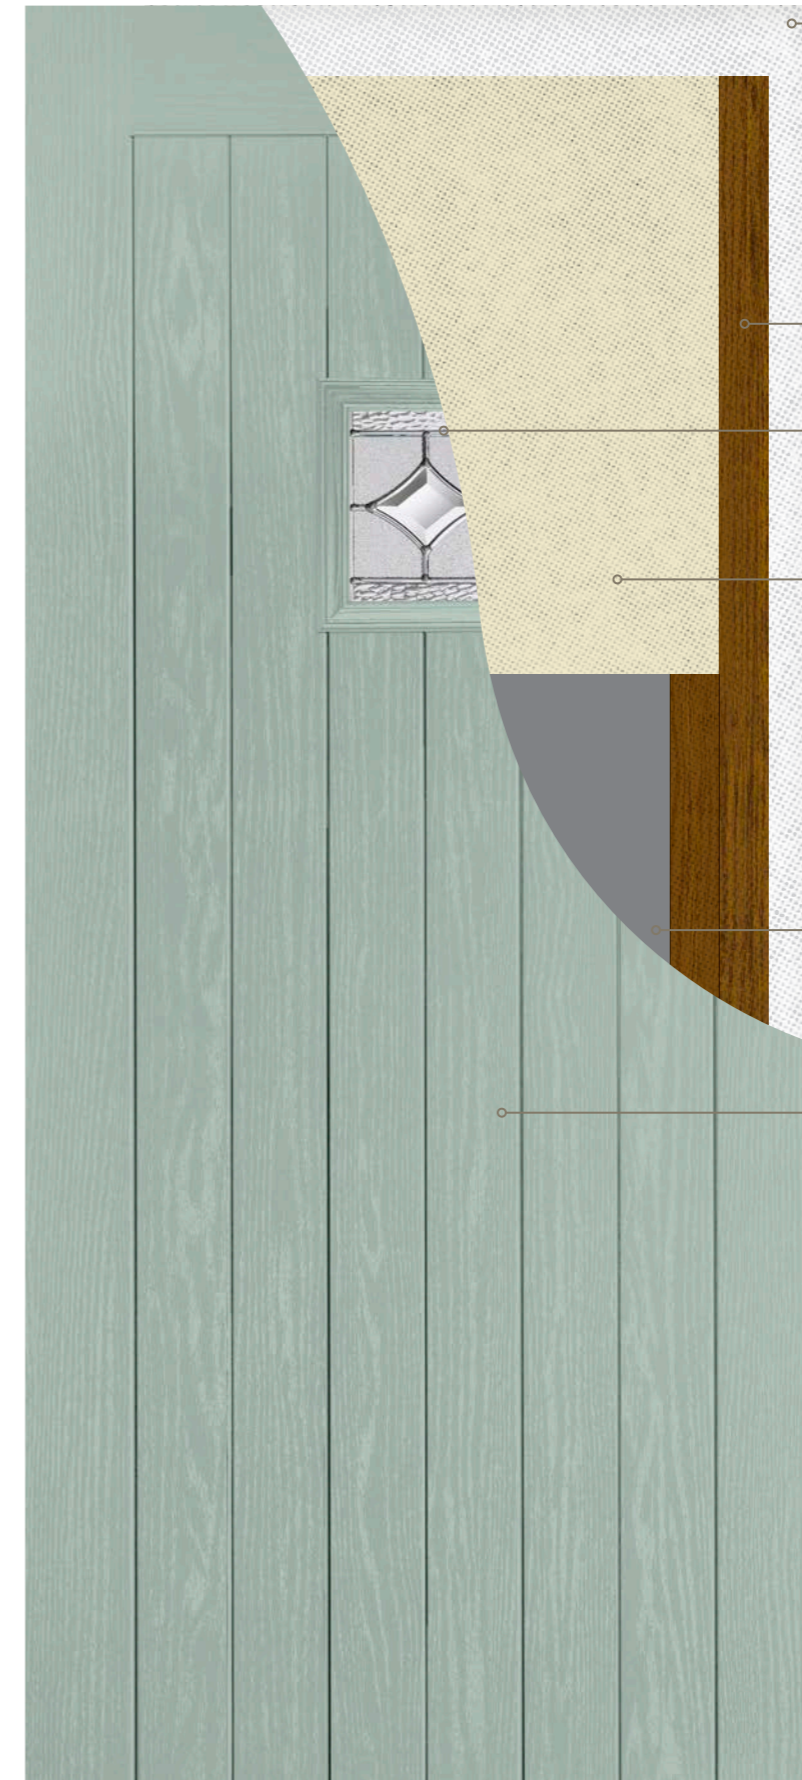

Let your imagination run wild with our collection of exclusive colours. Specially selected by our design team, there's a colour to suit every home.

Choose your glass design

Complement your new composite door with one of our decorative glass designs. Providing the finishing touch, there's a design to suit every property style - traditional, period, contemporary and modern.

Tried, tested and trusted

Water-resistant composites
Thanks to the water-resistant polymer composite rails, our doors will help keep water absorption away, this helps prevent a bowed door that could happen with solid timber core composite doors on the market.

Engineered wood
For improved stability.

Decorative glass
24mm Laminated glass units in both double and triple glazing for extra security and peace of mind

Foam filled core
The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. Tests prove that a Safeguard door is 19% more thermally efficient than a 48mm solid timber core composite door and 17% more thermally efficient than a 44mm traditional timber panelled door.

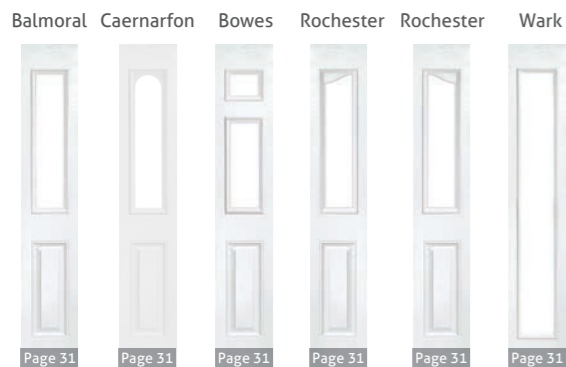

Reinforced core
The reinforced central board gives you extra reassurance that your Safeguard door is both solid and secure.

Quality you expect
We have the best product in the market by far. Our superior GRP doors have a high impact resistant skin with a beautiful woodgrain finish which gives a Safeguard door an authentic and premium aesthetic.

Traditional Door Styles and Sidelights

*Balmoral, Leeds, Edinburgh, Conwy, Bowes and Alnwick styles are also available as nxt-gen. See nxt-gen brochure for details.

Contemporary Door Styles

Contemporary City Range

Colour Palette

Carefully curated in-house, our non-toxic, odourless, low emission and eco-friendly bespoke paint range offers something different. Discover deeper, richer tones; classic and

delicate neutrals; and shades designed to bring joy. You can choose a colour for both inside and out, and they don't need to match.

Standard Range

Prestige Range

- Colours are only as accurate as the printing process allows.
- Due to the hand staining and painting process, no colour match can be guaranteed between the coloured door leaf and the door frame.
- No stains available on nxt gen.

Immerse yourself...

Glass

Glass is just as an important decision for homeowners as the door design and colour. In fact, door design, colour and glass, is what makes your choice so personal as you can pick which glazing perfectly suits your taste and home.

Our decorative triple glazing encapsulates the design between two panes of clear glass, protecting it from dust and

weathering, it is also easier to keep clean and stays looking good for longer.

Our double-glazed Chatsworth and Wentworth options contain the design within the unit, again protecting it from the elements.

Both are laminated to add an extra layer of protection to your door.

Yale Platinum 3 Star Cylinder.

Strong, versatile and secure this cylinder offers the ultimate home protection.

The Platinum 3 Star Cylinder is Yale's most secure lock yet. That's why they are offering £1000 guarantee if your cylinder snaps during the unlikely event of a break-in.

Lockmaster

Lockmaster faultlessly delivers high-performance security, improved ease of use and an impressive service life.

Police preferred Secured by Design approved, Lockmaster provides security and boasts the reassurance, reliability and outstanding features expected from Yale – the world's favourite security brand, securing homes for over 175 years.

Lockmaster's signature hook designed with security in mind.

SensCheck™ compatible. Check the status of your home, anytime, anywhere.

Lockmaster AutoEngage.

Designed, developed and tested to Yale's exacting standards, delivering high performance security whilst also complementing contemporary and heritage door styles.

The automatic lock mechanism instantly engages security latches from independent trigger points as the door closes - removing the need to lift the handle. The versatile gearbox design allows for decorative key retract and lever operated door furniture.

Improving ease of use for residents with limited dexterity, Yale Lockmaster AutoEngage offers a versatile solution for people and properties.

Trusted every day

The Lifetime Security Guarantee from Yale.

A lifetime security guarantee for door hardware, providing security solutions you can rely on.

All over the world, people are actively securing all they care about; their home, their family and their personal belongings with the name they trust the most, Yale.

Yale hardware is backed by a Lifetime Security Guarantee when installed on a certified PAS 24 door.

In the unexpected event of Yale's hardware failing during an attack Yale will pay*:

Up to £1,000 towards home insurance excess

Up to £1,000 towards repairs or replacements

£1,000 compensation

Up to £250 refund on call-out fees

*Terms and conditions apply.

*Please note, this does not include Stable or Double Rebated ranges

Berkeley

Main image: Berkeley door in Pebble Grey with Edwardian glass.

The perfect solution for controlling light and privacy in your home.

Mini Blinds can be handed left or right and have a simple control mechanism to be raised or tilted with one hand. This system uses a magnetic tab rather than a traditional cord, so is completely safe for use around children. Enclosed within two panes of glass in the frame and is completely protected from damage and dust. A stylish finishing touch to any external door. Please note also available in the Conwy door.

Hardware

No door is complete without some stunning hardware to finish it off. Our hardware is manufactured to internationally recognised standards, so you can be sure that every product is perfect, from how the hardware feels in your hand through to its functionality and finish.

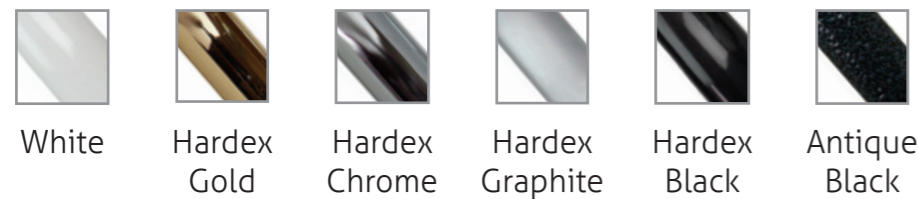

Classic

Classic design for the modern home. Not overly fussy or fancy, our classic range offers neat, timeless style to suit any type of home.

Surface Finishes

Heritage

Complementary styling for any period home. Ideal for big oak doors, heritage buildings and old cottages. Available in Black only.

More than just matching

At Safeguard, we give the smallest details our full attention to ensure we deliver a perfect product on every door and window.

- Prohesion Testing - Accelerated real world testing; Salt spray, cooling, heating & respraying
- Hardex Finish - Invisible skin that creates unmatched resilience
- Crafted Furniture - Engineered for enhanced strength and durability

Technical Guidance

Cleaning and Maintenance

Your Safeguard GRP composite door has been designed to be easy to maintain.

To keep your door clean, prolong the life of the surface finish and protect your warranty, we recommend you wash it regularly using warm soapy water (washing up liquid is ideal) and a soft, lint-free cloth. If you live in a coastal area, in a heavily industrialised area or near a main road, you may need to clean your door more frequently.

It is important that you DO NOT use any of the following on your door:

- Abrasive cleaners or scouring pads
- Any type of bleach or solvent (e.g. white spirit, methylated spirit, cellulose thinners, acetone or nail varnish remover)
- Any type of adhesives or tack for providing temporary protection or fixing of seasonal or other decorations etc
- High pressure or steam cleaners

Technical Figures

A Safeguard GRP composite door has a wealth of facts and figures that prove its quality. The door:

- Reduces outdoor noise by an average of 31dB
- Achieves Global Warming Potential (GWP) score of less than 5
- Achieves Ozone Depletion Potential (ODP) score of zero

Energy Efficiency

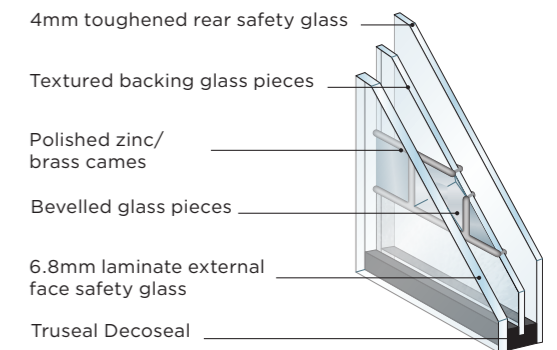

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. One of the best ways to achieve this is to choose thermally efficient products which keep warmth in and cold out, saving money and emission levels.

Doors were tested at the University of Salford's Energy House. This represents a typical Salford 1919 terraced house and its construction represents 21% of the UK's current housing stock. The house has been reconstructed in a fully environmentally controllable chamber, in which climatic conditions can be maintained, varied, repeated and patterns monitored. For the test, the inside temperature of the Energy House was 25°C with an exterior temperature of 5°C.

Decorative Glass

Features and benefits:

- Decorative double and triple glazing options available, see page 10 for details
- The decorative centre pane is sealed within the unit therefore, it is protected from dust and weathering
- Easy to clean
- 6.8mm glass laminated as standard
- Glass patterns may vary
- Slight bubbles, lines and surface imperfections are all characteristics of glass. They are not to be considered as defects as they add character to decorative glass

safeGUARD
